BEFORE WE  
EXPECT TRUST FROM  
OUR CUSTOMERS,  
WE PROVIDE EVIDENCE  
*that's us!*

## ENVIRONMENT & SUSTAINABILITY

*that's us!*

Sustainable management and careful use of resources are a matter of course for us and part of our corporate philosophy. This basic idea is consistently integrated and lived in our work processes.

We are proud to be the first certified manufacturer of partition systems and lockers in Germany to operate according to the FSC™ and PEFC guidelines.

### PEFC - registered

We pay attention to a sustainable supply chain in which our products are procured under ecological, economic and socially just aspects.

### FSC™ - certified

As the first certified manufacturer in the area of partition systems and lockers in Germany, we make an active contribution to the protection of our earth with this future-oriented procurement method. We supply almost our entire range from sustainable wood in accordance with the specifications of the FSC™.

On request  
the products are  
available with  
FSC™ certification

## MADE IN GERMANY

*that's us!*

Our products are manufactured for you at the company site in Horhausen, Rhineland-Palatinate. This is the only way we can guarantee the high quality standards we set for our products.

## PREQUALIFIED

*that's us!*

We are registered in the list of prequalified construction companies with the number 010.049740, proving that we are qualified for the products and services we offer.

## INNOVATIVE & DESIGN-ORIENTED

*that's us!*

With our design-oriented and innovative products, we convince not only our customers, but also national and international committees.

# Locker systems

Stylish and elegant partitioning.

(1)

**Lockers type VITRUM GS**

**(1) + (2) + (3) + (4)**

- Locker body made of white HPL
- Doors made of 10 mm coloured enamelled toughened safety glass (ESG-H)
- Here installed on a tiled concrete base on site
- One of many different installation options

**There are many advantages of glass lockers:**

- Infinite colour varieties
- Easy to clean
- Significantly reduced risk of breaking in
- Elegant design
- Perfect impression even after many years of use
- Glass ensures more careful handling and thus prevents vandalism

(2)

(3)

(4)

## Advantages of motif printing in public swimming pools:

- Visually appealing design
- Prevents vandalism
- Useful for orientation purposes
- Choice of motif according to customer requirements

### Locker systems type GVKF13

#### (1)

- Front made with customer-specific motif
- Complete body made of waterproof HPL
- Extremely robust and durable

#### (2)

- Flush-fitting, easy-to-clean fronts
- Visually very appealing
- Locker numbering using riveted plastic plate

#### (3)

- Motifs are made individually according to customer requirements
- Cloakroom locker systems thus become a design element of the overall architecture

#### (4)

- Various designs for divisions inside the locker
- Many different numbering options
- With this variant: engraving on the HPL plate (optional)

(2)

(3)

(4)

(1)

(1)

**Locker system type GVKF13**

- Mounted on central support feet
- Extremely simplified cleaning. Cost savings compared to concrete and tiled bases
- Permanently hygienic

(2)

**Cloakroom locker system type SGVK13**

- On customer base with pre-built bench
- Comfortable and elegant solution
- User comfort and easy to clean
- Different colour combinations for individual accents

(3)

**Locker design**

- Different locking systems available
- Large selection of numbering variants

(4)

**Locker system type GVKF13**

- On base tiled on site
- Special accents with variations in colour design
- Can be made according to customer requirements

(5)

**Locker system type GVKF13**

- Completely flush fronts
- Calm optic
- Variable locker body construction
- Locker dimensions and individual divisions according to construction project

(2)

(3)

(4)

(5)

**Lockers**

- Many different types of locker dividers
- Single or double locker
- Multiple locker
- Z lockers
- Helmet and safe deposit boxes
- Sizes and arrangements are individually adapted to the premises

**Staff cabinets as black and white lockers**

- Available in different versions
- Centre partition in the locker separates street and work clothes, for example
- Centre partition also possible as a movable version

**Installation options**

The installation options also depend entirely on the structural situations:

- (a)** Installation on an aluminum subframe
- (b)** Installation on a concrete base tiled on site
- (c)** Installation on an aluminium subframe with an integrated pre-built bench
- (d)** Installation on a concrete base tiled on site with an integrated pre-built bench

**Different types of locker tops**

Sloping tops prevent bags or other objects from being placed on top of the lockers. An important criterion, especially in a hygiene area.

## Equipment and Accessories

### (1) Very stable door stop made of stainless steel for type GVKF13 lockers

- Installed in single, double and Z lockers
- Limited 95° opening angle to
- Damping reduces noise
- Doors are equipped with concealed, maintenance-free stainless steel hinges

### (2) Opening limiter for lockers of type SGVK13/AGVK13

- Noise dampened
- Guide passes through the body

### (3) Interior fittings for a simple locker type GVKF13

- Hat shelf
- Clothes rail
- Sliding double hooks
- Other interior fittings on customer request

### (4) Interior fittings of a simple locker type SGVK13/AGVK13

- Hat shelf
- Clothes rail
- Two sliding hooks
- Optional perforation of the locker according to customer requirements

### (5) Shelf, wardrobe lockers type GVKF13

- Completely closed
- Practical solid core material
- Rounded body corners
- Sturdy and easy to clean

### (6) Optional locker bottom made of aluminium tubes

### (7) Perforation or slitting of the locker bottom as an option

### (8) Locking solutions

- E.g. coin locks
- Additional protection against door theft
- Anti-theft bolts for single, double and Z lockers

### (9) Cylinder lever locks

as the main locking system for staff lockers

### (10) Standard numbering for all locker types

- Silver-coloured plastic number plates with black engraving
- Optionally available in aluminium or stainless steel

### (11) Engraving completely milled

### (12) + (13) + (14) Key bracelets

- Made of different materials
- Key plates and other locker accessories can be designed individually according to customer requirements

### (15) Hangers

- Made of break-proof nylon
- Matched to the standard sizes of the wardrobes

### (16) Additional clothing net increases the comfort for visitors

- Additional clothing net increases the comfort for visitors

### (17) Coat hanger with additional shoe hook

- Coat hanger with additional shoe hook

### (18) Hanger with shoe hook and net

- Hanger with shoe hook and net

# Changing cubicles

0296 - 0321

## Advantages for the use of glass in swimming pools:

- 100% recyclable
- Aesthetic design
- Colours can be reordered
- Easy to clean
- Durable
- Economical

(1)

### Changing cubicles type VITRUM WK

- Combined rows of changing cubicles and cloakroom lockers made of glass (ESG-H)
- Optimal visitor orientation using colour choice and barrier system to separate the aisles

(2)

### Changing cubicle system type VITRUM WK and hair drying stations

- Foot-free front
- Hair drying stations with real wood surface
- Wall claddings made of mirror glass
- Safe deposit boxes built under the vanity top

(3)

### Cubicle benches

- On a base tiled by the customer
- Benches support the entire construction
- No additional support feet required

(4)

### Central middle foot

- Installation under the cubicle bench
- Support feet in the front therefore largely unnecessary

(5)

### Storage for changing cubicles

- Milled rubber lip serves as a door buffer

(6)

### Central locking device incl. bench

- Simultaneous locking of the cubicle door
- Emergency unlocking possible from the outside

(1)

**(1)**

**Changing cubicles type VITRUM WK**

- Constructed in safety glass (ESG-H)
- Particularly easy to clean
- Very elegant variant

**(2)**

**Changing cubicles with VITRUM GS lockers positioned directly opposite**

- High quality safety glass (ESG-H)
- Comply with the strict test criteria of the TÜV

**(3)**

**Communal changing area type VITRUM II WK**

- Infinite variety of glass colours
- Easy cleaning
- High resistance to mechanical damage
- Elegant design
- Perfect look even after many years of use
- Generously designed lettering serves as a design element and aid to orientation

(2)

(3)

## Changing cubicles

(1)

(1)

### Family and individual changing cubicles type EF-3 WK

- Ideal for high-quality changing areas
- Excellent design
- Very stable
- Completely water resistant

(2)

### Changing cubicle systems type EF-3 WK

- On-site concrete bases under the cubicle bench
- Complete construction is supported by the benches
- This eliminates the need for support feet in the front
- Calm optic
- Very stable
- Made visually more attractive by adding a glass end wall with a motif print and integrated safe deposit boxes

(3)

### Changing cubicle system type EF-3

- Spacious family changing cubicle offers sufficient space for bathers
- Stick-on pictograms serve as orientation aid
- Waterproof construction

(2)

(3)

(1)

(2)

(3)

## (1)

### Communal changing area type VK13

- Waterproof entry-level model for the swimming pool area
- Very stable and easy to clean
- Sturdy and durable construction
- Numbered circles stuck on the doors serve for easy and quick orientation
- Additional pictograms with the cabin lettering including Braille on the partition wall

## (2)

### Changing cubicles type VK13 WK

- The colour selection is entirely according to customer requirements
- Colour combinations are a design element and an aid to orientation
- Countless possible colour combinations allow the greatest possible scope for design

## (3)

### Central locking device

- Central locking under the cubicle bench seat
- Simultaneous locking and opening of the cabin doors
- Emergency unlocking from outside possible

Construction of central locking device

The changing cubicle can be locked synchronously using the central under bench lock. Alternatively, it can be locked using central lever locking.

Central lever locking construction

Synchronous locking of the changing cubicle with central lever locking.

Central middle foot construction

The optional central midfoot under the cubicle bench is anchored to the raw concrete floor. This means that the entire cubicle can be supported on one foot and feet in the front are largely unnecessary.

Changing cubicles with a central middle foot: good looking and money saving at the same time!

- Up to 75% less feet
- Less cleaning effort
- Lower cleaning costs
- Less damage from cleaning machines
- Floating look improves appearance

For comparison: changing cubicle with support feet in the front

## Changing cubicles

The central middle foot:  
the load-bearing structure  
with a long-term perspective.

- Central feet under the cubicle benches are anchored to the bare floor and support the entire cubicle system
- Feet in the front are largely unnecessary
- This has advantages for long cubicle life:
  - more hygienic
  - lower cleaning costs
  - less damage from cleaning machines
  - top class look

### Example of the cost savings with 40 changing cubicles

Example changing cubicles	with supports	with central support
Qty of changing cubicles	40	40
Supports per cubicle	4	1
Hourly wages of a cleaning person	23,00 €	23,00 €
Cleaning effort per support	15 sec.	10 sec.
Cleaning effort per day	40 min.	6,7 min.
Cleaning effort per year	244 Std.	41 Std.
Cleaning costs of supports per year	5.612,00 €	943,00 €
<b>Costs savings per year</b>		<b>4.669,00 €</b>

Est. costs of the central supports at the changing cubicles	18.000,00 €
<b>Amortization after years, est.</b>	<b>4</b>

# Equipment solutions for visitors with physical disabilities

(1)

**(1) + (2) + (3)**

**Glass changing cubicle type VITRUM WK with hair drying station and wash basin**

- Made of safety glass (ESG-H)
- Generously designed cubicle with sliding doors. The sliding doors are offset so that you can easily switch from a street wheelchair to a swimming pool wheelchair in the cubicle. The sliding handle in the changing area is helpful here
- Directly connected hair drying station made of HPL solid core panels with a built-in, accessible and height-optimised wash basin
- Height-optimised door handles
- Pictograms on the doors make the cubicle use clear
- Completely water-resistant construction
- Cubicle offers generous space for moving around
- The seat has a side support bar and an additional comfort handle on the cross support

**(4)**

**Cloakroom lockers made of glass**

- Accessible lockers made of glass (ESG-H)
- Directly opposite changing cubicles
- Different options for locker width, depth and height
- Very easily adapted to structural conditions
- Optional numbering in Braille

(2)

(3)

(4)

# Benches and cloakroom hook rails

(1)

**(1)**

**Spacious changing area**

- Freestanding benches for the changing room area
- Made to order
- Comfortable seat height and width
- Easy to clean and hygienic surfaces
- Sturdy aluminium base frame clad with 13 mm thick HPL panels
- The combination of different colours creates accents

**(2)**

**The exclusive variant**

- Cloakroom lockers made of glass
- Bench supports made of lacquered solid wood

**(3)**

**Large amount of space**

- Large seating area in the middle with wooden slats on customer base
- Additional benches at the locker

**(4)**

**Functional changing area**

- Benches made of sturdy, easy-care HPL and additional hook rail
- Particularly easy to clean

(2)

(3)

(4)

**(1)**

**Hook rails with glass support plate**

- 10 mm safety glass
- Satin, clear or coloured glass available
- Special hooks made of stainless steel
- Flush-fitting wall mounting done by stainless steel rosettes

**(2) + (3)**

**Hook rail made of aluminium tubes**

- Triple safety hooks
- Hooks located behind the hook rails provide safety
- No protruding parts
- Risk of accidents is significantly reduced

Variants of benches:

- Bench with front support and wall attachment

- Foot free bench with wall attachment (masonry must be sufficiently stable for this attachment)

- Bench as a free standing bench construction

- Single-sided bench with hook rail and backrest

- Double-sided bench with hook rail and backrest

- Bench with shoe rack, available for all types  
Subject to technical alteration.

# Vanity units and hair drying stations

## Vanity units and hair drying stations

(1)

(1)

### Hair drying stations and storage places made of solid grade laminate

- Round elements, wall-mounted
- Outstanding interior design and high light of this area
- Excellent implementation of uniquely themed environments are possible

(2)

### Vanity unit and base locker made of glass

- System as a niche solution
- Mirrors on the rear wall, side wall and ceiling

(3)

### Hair drying stations with real wood shelf

- Can be designed individually
- Large selection of colours and materials
- Dimensions and design according to customer requirements

(4) + (5)

### Vanity units and shelves made of mineral solid material

- Seamless construction up to rear wiping edge
- Very easy to clean
- Very pleasant to the touch
- Shape and dimensions according to customer requirements
- Different wash basins can be built-in

(2)

(3)

(4)

(5)

(1)

**Hair drying stations**

- Individually customisable and tailored to the overall design
- Large selection of colours and materials
- Robust and durable constructions
- Easy to clean

(2)

- Harmoniously integrated vanity unit solution type VKW made of high-quality, waterproof HPL solid grade panels

(1)

(2)

(1)  
**One of many design options**  
 • Vanity unit with countertop washbasin

(2)  
**Multifunctional vanity unit system**  
 • Waterproof, robust and easy to clean system with generous storage space, can also be used as a changing table  
 • Washbasin also serves as a baby bath tub  
 • Shelves and base lockers offer additional storage space

(3)  
**Attractive glass design**  
 • The washbasin system and changing room made of high-quality (ESG-H) safety glass are easy to clean and perfectly integrated into the overall concept

Rear wall vanity unit. This can be equipped with a rabbet for the elegant and flush mounting of a mirror if desired.

(2)

(3)

Vanity unit door with round opening. Doors are equipped either with handles or with a cylinder lock.

Vanity unit door with access flap for paper towels. Just one of many design options.

# Safe deposit systems, shelves and storage spaces

(1)

**Safe deposit system type VITRUM GS**

- Doors made of safety glass
- Customised motif
- Very functional and exclusive overall solution
- Safe deposit boxes flush with the glass front

(2)

**Safe deposit system and storage shelf type GVKF13**

- Doors and shelf made of 13 mm solid core panels
- Free choice of compartments and sizes

(3)

**Safe deposit system type VITRUM GS**

- Doors and panels made of safety glass
- Body made of HPL
- Integrated finger pinch protection

(4)

**Helmet compartments**

- Recessed flush into a niche
- Particularly space-saving variant

(2)

(3)

(4)

## Shelves and storage spaces

VitaSol Therme Bad Salzuflen (1)

(2)

(3)

### (1) + (2) + (3)

#### Glass shelves and storage spaces made of satinised glass

- Custom design in shape, colour and size
- Other types of glass:
  - float glass, ornamental glass, white glass
- Brackets and connection made of anodised aluminium fittings

(1)

(2)

(3)

(4)

**(1)**

**Wall-mounted shelf system**

- Made from 13 mm solid grade panels
- Asymmetrical compartment division
- Special design effect and very user friendly

**(2)**

**Shelf systems, type VK13**

- Completely waterproof, sturdy and durable
- Easy to clean

**(3) + (4)**

**Combined storage space and safe deposit boxes type VK13**

- Indirect lighting on site as a design element
- Shelves are partially recessed into a niche

# Shower partitions

More privacy  
in the shower area  
with shower partitions  
by Schäfer  
Trennwandsysteme.

**(1)**

**VITRUM. The elegant glass variant**

- Made of high-quality and robust (ESG-H) safety glass
- Completely waterproof construction
- Extremely easy to clean
- Design, colour, and size to customer requirements

**(2)**

**Shower partition wall type EF-3**

- More privacy in the shower area
- Ideal splash protection
- Large variety of decors and colours

**(3)**

**Shower cubicle Typ VK13**

- Single shower cubicle with integrated changing area for dry storage of clothing
- Maximum privacy while showering and changing
- Made of high quality 13 mm thick HPL solid grade panels
- Effective and durable finger pinch protection optionally available
- High-quality anodised aluminium hardware system
- Very robust and waterproof construction
- Wide range of decors and colours

# Wet room doors

**(1)**

**Wet room doors type NT 40**

- Completely waterproof
- Element thickness 40 mm
- Element filling over the entire area using polystyrene rigid foam
- Cover layers made of 3 mm HPL solid core panels, permanently glued to an all-round plastic frame
- Frame reinforced by internal PUR rigid foam frame
- Very stable, yet lightweight construction
- Installed as flush or rebated version depending on customer requirements
- Optionally also available as a fire door (T30) with 50 mm element thickness

**(2)**

**High-quality aluminium frames**

- Suitable for wet rooms and swimming pools
- Frames available in various finishes and design variants

**(3)**

**Mortice locks**

- Made of brass and stainless steel
- Ensure permanent functionality
- A wide variety of fittings to choose from: e.g. toilet locks, panic fittings or push-button combinations

**(4)**

**High-quality stainless steel hinges**

- Their stability ensures long-term functioning of the door

**(5)**

- Hinges flush with the door
- Optimally matched to the frame construction

**(6)**

- Aluminium handle set with toilet lock. Just one of many fitting options

**(7)**

- Stainless steel handle set with toilet lock

**(8)**

- Glass cut-outs and portholes can be built in according to customer requirements

**(9)**

- Door closer with slide rail and optional lock

# Toilet partitions and privacy screens

Stylish and elegant partitioning.

(1)

**Toilet partitions EF-3 JUMP with floating optic**

- Recessed feet and recessed top profile
- Construction looks like a floating optic
- Robust sandwich construction with 3 mm HPL layer
- Completely waterproof
- Optimal partition system for heavily frequented areas

(2)

**Toilet partitions type VITRUM II**

- Cubicle system made of safety glass (ESG-H)
- Exclusive, durable and easy to clean

(3)

**Privacy screens made of glass**

- Wall hanging construction
- Made of enamelled safety glass (ESG-H)
- Mounting by means of discreet aluminium or stainless steel brackets
- Hygienic and easy to clean
- Waterproof
- Easy floor cleaning due to the construction
- Colour selection according to RAL colour chart
- Motif prints optionally possible
- Privacy screens will be produced acc. to the building site dimension

(4)

**Privacy screens type VK13**

- Wall-mounted privacy screens
- Made of 13 mm solid grade laminate
- Revolving edge is always black
- Installed with durable aluminium holders
- Waterproof
- Wall-mounted structures without bottom support feet are particularly hygienic, since floor cleaning can then be faster and more efficient
- Wide range of colours available
- Motif prints are optionally available
- Privacy screens will be produced acc. to the building site dimension

(2)

(3)

(4)

**Cubicle system type EF-3**

- Made of 36 mm thick sandwich elements
- 3 mm thick HPL layer on both sides and internal torsion-resistant aluminium frame
- Completely waterproof
- Very high stability
- Damping rubber ensures noiseless closing of the doors
- Flush-mounted front panels with excellent easy-clean design
- Wide range of colours and design options
